- 1- The purpose of this IMOU is to encourage voluntary interaction and cooperation between the two partners and to promote friendship between the two Parties for their mutual benefit. This cooperation may include, but will not be limited to training, research and technical assistance in the areas of in-field monitoring of cetacean populations in particular using visual, acoustic and photo-identification methods. This cooperation may also include the formation of consortia and grant proposals in order to implement projects of mutual interest.

The implementation of any cooperative project shall be conditional upon the availability of sufficient funding acceptable to each of the participants and the execution of a written agreement signed by authorized official of the parties. CIMA Foundation and Participe Futur will each designate a Department or Unit and a representative who is to be responsible for the management and possibly updating of this IMOU.

4- This IMOU takes effects when signed by authorized representative of both parties. The agreement will continue in force and effect for a period of five (5) years from such date. It may be renewed.
