Dichiarazione ai fini del D.lgs. 33/2013 art. 15.

Titolare di incarico specifico di consulenza

Io sottoscritto Paolo Campanella in qualità di legale rappresentate di FadeOut Software srl

Dichiaro che:

1. FadeOut Software è stata incaricata da fondazione CIMA in data 31/12/2013 dell'esecuzione di un servizio di sviluppo di applicativi web-gis, siti web, applicazioni per smart phone e infrastrutture e-learning per fini di protezione civile e monitoraggio ambientale
2. L'incarico sopra ricordato prevede una durata dal 31/12/2013 al 28/02/2015
3. Il curriculum è disponibile nel sito www.fadeout.it ed è riportato qui sinteticamente:

   OPERA – COS-OT
   2007 to 2010
   Project Analysis, Software Design and Resources Scheduling for the project OPERA developed by COS-OT for the Italian Space Agency (ASI). OPERA (OPerational Eo-based RAinfall-runoff forecast) "Civil defense from floods" is a Pilot Project realized in the ASI – Italian Space Agency framework program for the development of applications for the management of natural and human induced hazards.
   The End User is the Office for the Hydrogeologic and Anthropic Risks – Central Functional Centre Service – of the Civil Protection Department.

   Risc-KIT – Consorzio Ferrara Ricerche
   May 2014 to Present
   RISC-KIT (2013-2017) is an EU FP7 Collaborative project. RISC-KIT will develop methods, tools and management approaches to reduce risk and increase resilience to low-frequency, high-impact hydro-meteorological events in the coastal zone. These products will enhance forecasting, prediction and early warning capabilities, improve the assessment of long-term coastal risk and optimise the mix of prevention, mitigation and preparedness measures. FadeOut software is developing the required Web GIS Platform.

   MVision Widgets – TEREX Corporation
   February 2013 to Present
   Terex Corporation is a diversified global manufacturer operating in four business segments: Aerial Work Platforms, Construction, Cranes, and Materials. FadeOut software is working with Motronica, a research unit of the Terex corporation specialized in state-of-the-art electronic components and software solutions based on automotive electronics standards and CANbus network protocols, serving customers in the lifting, drilling, foundation, agricultural, earth-moving, aerial work platform, electrical vehicle and pleasure boat industries. FadeOut software work with Terex team to improve MVision, a SCADA that's target embedded linux platforms for cranes control.

Supply Chain Toolkit – Global Healtcare Company
October 2006 to Present
Since 2006 FadeOut Software work in synergy with supply chain European team of a global healthcare company, supporting them in the development of custom scheduling system and inventory optimization tools.
We built different solutions using .NET platform and Java

National Focal System –Agenzia Spaziale Italiana
