

ALABBAS ADAM NAGI ADAM

CIVIL DEFENCE OFFICER / EMAIL ADDRESS: Hubab735@gmail.com (+2491)

STUDIES, KHARTOUM, SUDAN

Civil defense professional with 19 years of experience in disaster management, including leading emergency responses to earthquakes, hurricanes, and floods. Proven track record of successfully coordinating evacuations, providing life-saving support, and restoring critical infrastructure. Expertise in risk assessment, incident command system operations, and community engagement in disaster preparedness.

EXPERIENCE

2018- PRESENT

CIVIL DEFENCE CENTRAL MONITORING STATION HEAD MANGER SUDAN (KHARTOUM)

The Civil Defense Central Monitoring Station Head Manager plays a crucial role in overseeing the operations and activities of a Civil Defense Central Monitoring Station. Responsible for monitoring emergency situations, coordinating responses, and ensuring the efficient flow of information between different agencies involved in civil defense. The Head Manager also develops and implements protocols, procedures, and strategies to enhance the effectiveness and response time of the station, ensuring the safety and security of communities during times of crisis.

2007- 2017 FIRE ALARM ENGINEER/ SUDAN (KHARTOUM)

The fire alarm engineer is responsible for providing the design, installation, and maintenance of fire alarm systems and equipment. Responsible for ensuring that all fire alarms are functioning properly and that they are compliant with local regulations and standards. Additionally, a fire alarm engineer conducts inspections, tests, and repairs on fire alarm systems, as well as create and maintain records of system performance and maintenance.

2004- 2006 PREVENTION AND SAFETY CIVIL DEFENCE OFFICER/ SUDAN (KHARTOUM)

The Prevention and Safety Civil Defense Officer is responsible for implementing civil defense measures to prevent and respond to emergencies and disasters. This includes conducting risk assessments, developing emergency response plans, and overseeing the implementation of safety measures within communities. Also involved in conducting community outreach and education initiatives to promote disaster preparedness and ensure the safety and protection of individuals.

EDUCATION

BACHELOR OF TECHNICAL EDUCATION/ Sudan University of Science & Technology/ SUDAN (KHARTOUM)/1999 –2000

ELECTRONIC ENGINEERING DIPLOMA/ Sudan University of Science & Technology/ SUDAN (KHARTOUM) 96-99

PROFESSIONAL TRAINING COURSES

BASIC CIVIL DEFENCE COURSE, ADVANCE CIVIL DEFENCE COURSE (SUDAN/ KHARTOUM) 2005 August – September. The local training in basic civil defense course provided the candidate with essential knowledge and skills in disaster response and preparedness. This included training on first aid and CPR, search and rescue operations, and emergency procedures and protocols. The advance civil defense course further equipped the candidate with advanced skills in incident command system operations, hazardous materials response, and critical infrastructure restoration, ensuring they were well-prepared to handle complex emergencies and mitigate risks effectively.

SKILLS DEVELOPING FOR CIVIL DEFENCE WORKERS (JORDON/MMAN) for one week/ 2008 The external training course in "Skills Development for Civil Defense Workers" provided by Jordan provided participants with specialized training in civil defense operations and techniques. This course equipped individuals with the expertise to respond to emergencies, implement civil defense measures, and ensure the safety and protection of communities. Skills such as risk assessment, emergency response planning, and crisis management were honed through this course, enabling individuals to be effective and competent professionals in the field of civil defense.
