

### **About us**

CIMA Foundation, International Centre in Environmental Monitoring is an Italian non-profit research organisation. It aims to promote study, scientific research, technological development, and higher education in engineering and environmental sciences for the protection of public health, civil protection, and the preservation of aquatic and terrestrial ecosystems.

### **Who we are looking for**

CIMA Foundation is looking for a graduate technician **expert in GIS applied to environmental management and risk reduction issues.**

The candidate required must meet the following REQUIREMENTS:

- technical-scientific training acquired through a degree in a STEM discipline, with preference for the fields of environmental engineering and environmental or natural sciences
- from 2 to 5 years in professional or research activities on topics related to the subject of the call for proposals
- good knowledge of GIS software (ArcGis and Quantum GIS)
- experience in processing and interpreting geo-spatial and non-geo-spatial data
- ability in the production of texts/handbook for training activities.

Good knowledge of oral and written French and English is also required, as well as willingness to undertake short trips. In addition, the candidate must have the ability to produce quality results and problem solving, but also a sense of priorities and organisation. Preferential title is the registration in the ranking lists of targeted placement in accordance with Italian Law 68/99 and smi.

### **What we offer:**

A placement within the staff of CIMA Foundation is proposed by means of a fixed-term contract of one year renewable until the end of the project RETURN - MULTI-RISK SCIENCE FOR RESILIENT COMMUNITIES UNDER A CHANGING CLIMATE - CUP Code B57G22001180002 expected on 30 November 2025.

The activities will be conducted within the project RETURN - MULTI-RISK SCIENCE FOR RESILIENT COMMUNITIES UNDER A CHANGING CLIMATE - Code CUP B57G22001180002, of which CIMA Research Foundation is a partner. The contract will also promote agile working by considering the possibility of granting smart working activities.

In addition, we offer a number of opportunities:

- an interesting job in a young and fast-growing interdisciplinary research foundation
- the opportunity to grow professionally and acquire skills
- the opportunity to work in a motivated and enterprising team.

Interested candidates are kindly requested to send their CV, together with a covering letter, to email: [ricerca.personale@cimafoundation.org](mailto:ricerca.personale@cimafoundation.org) by 19 January 2023 specifying in the subject line: 'Selection GIS Technician - RiskEnv - Project Return'.

The first evaluation of the candidates will focus on CVs; the candidates (minimum 4 candidates, maximum 12, based on the number and level of applications) who obtain the best evaluations will be contacted for an interview. Based on the results of the interview, the most suitable candidate will be presented with a job offer within CIMA Foundation. The proposed contract will be for a fixed-term of one year (renewable until the end of the project RETURN - MULTI-RISK SCIENCE FOR RESILIENT COMMUNITIES UNDER A CHANGING CLIMATE - CUP Code B57G22001180002 scheduled for November 30, 2025) at level V of the C.C.N.L. contract for personnel of the Education and Research Sector, with gross annual remuneration ranging from 30,000-25,000 euros.
